

weightLESS

A Harmony of Contrasts Embark on a captivating journey through the weightLESS collection. This year's narrative unfolds entwined with the polarity of words, as we explore the delicate dance between weight and its absence, **LESS**. It's a narrative that divides and unites, revealing the weight of choices, experiences, and appearances, juxtaposed with the liberation found in lightness singularity. Welcome to the enchanting realm where every piece invites you to a dance of elegance, redefining sophistication through the lenses of lightness.

Colors as the main character

This year, color takes center stage, with glazes that burst forth from chromatic timidity, intensifying and shimmering. From the intense glows of soft tones to the simplicity of saturated colors, it's a delicate balance between the weight of saturation and the lightness of shine, the depth of color and the subtly present of hand painting. A harmonious play encapsulated in the name of the collection, **weightLESS**.

A Commitment to the Future

In a world where balance has often been overlooked, our collection seeks to redefine the industrial weight, portraying it as a human development capable of embracing imperfections, learning from mistakes, and contributing to a conscious environmental approach. Working predominantly with faience, a product extracted from the earth, we shape and color each piece, reflecting the essence of our era.

ECOFAI

As a result of a constant desire to improve production processes and minimize our environmental footprint, ECOFAI was born! A clay that comes from the reuse of waste and surplus from our production, and become naturally malleable and perfectly imperfect. ECOFAI represents our dedication to a sustainable future, optimizing resources and minimizing our environmental footprint. Its simplicity, functionality, and visual weight convey a connection to our origins while positioning us firmly in a commitment to the future
